## PROFESSIONAL SUMMARY

Front-End & Mobile / Full-Stack JavaScript Developer with over 3 years of experience building and delivering web and mobile applications in production. Skilled in React Native, React, and Angular, with expertise in API integration, real-time architectures, and application security. Focused on building robust, scalable, and user-centered products.

## TECHNICAL SKILLS

**Languages & Frameworks:** JavaScript, TypeScript, React, React Native (CLI), Angular (13/17), AngularJS, Node.js (Express.js, NestJs).

**Mobile & Real-time:** VoIP (Agora), WebSockets, Google Maps/Places API, Geolocation, Push Notifications (FCM, OneSignal), i18n.

**Backend & Security:** PostgreSQL, REST APIs, JWT, Firebase Auth, reCAPTCHA, Stripe Payments, Rate Limiting, Schema Validation.

**Testing & Code Quality:** Unit Testing (Jest), Component Testing, API Testing, Code Reviews, Linting, Clean Code Practices

**DevOps & Cloud:** Docker, CI/CD, Nginx, AWS S3, Cloudinary, Sentry, Git, Jira, Agile/Scrum.

## PROFESSIONAL EXPERIENCE

WorldSoft Group | Front-End / Mobile Developer

Tunis, Tunisia | 09/2024 – Present

- Develop and maintain front-end features for B2B/B2C travel platforms serving hundreds of daily users within a Scrum team.
- Built a cross-platform e-Visa application featuring secure authentication and offline storage, supporting multi-country travel workflows.
- Integrated GDS systems and standardized REST API communication, reducing integration inconsistencies and release issues.
- Participate in sprint planning, testing, and controlled production releases on bi-weekly delivery cycles.

HZ Technologie | Full-Stack Developer

Tunis, Tunisia | 06/2023 – 09/2024

- Built and maintained React Native applications (customer & driver) used by 50+ pilot drivers in real operational environments.
- Developed Node.js APIs with PostgreSQL supporting messaging, billing, driver wallets, and secure authentication (JWT, Firebase Auth).
- Implemented real-time tracking and VoIP communication using WebSockets and Agora.
- Integrated Stripe payments and identity verification workflows for logistics and service platforms.
- Supported production deployments to Google Play Store and Apple App Store, contributing to release stability and monitoring.

ERATHIS | Full-Stack Developer  
Tunis, Tunisia | 04/2022 – 05/2023

- Developed and maintained erathis.net using React 18 and TypeScript with a pixel-perfect, responsive approach.
- Created and documented a UI design system and component library for internal company use.
- Collaborated with product and design teams to optimize performance and usability.

## ADDITIONAL EXPERIENCE

Family Agricultural Project – Operations & Production Management  
Gabes, Tunisia | 06/2014 – 03/2022

- Managed agricultural production activities within a family-run operation.
- Planned production cycles, supervised daily work, and ensured output quality.
- Coordinated logistics, seasonal labor, and basic cost control.
- Developed strong discipline, accountability, and long-term responsibility.

## EDUCATION

Bachelor's Degree in Management Information Systems (MIS)  
Private School of Applied Science and Technology (ESSAT), Gabès | 09/2011 – 06/2014

**Languages:** Arabic (Fluent), French (Professional), English (Professional)
